

iCabbi Driver App Download

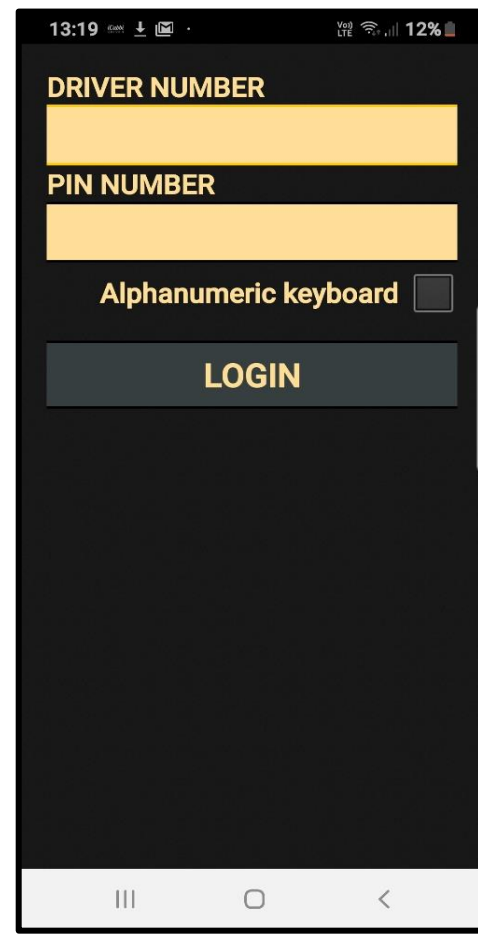

Please ensure you read and understand all of the instructions before you start to do them.

To complete the below process you will firstly need to uninstall your existing iCabbi Driver App. You can do this by pressing and holding the app file and then selecting Uninstall or you may have to go into your settings to delete it. Once Uninstalled, you will be able to open the text message which we will send you and start to download the new app.

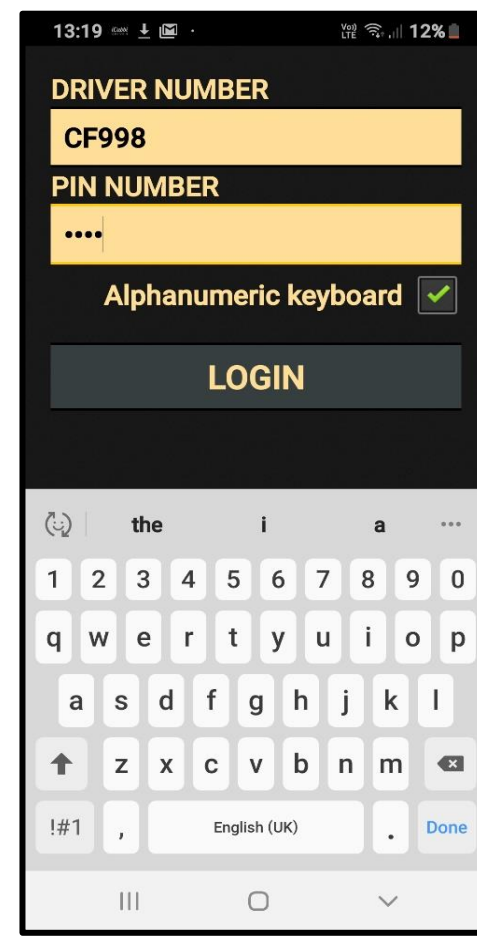

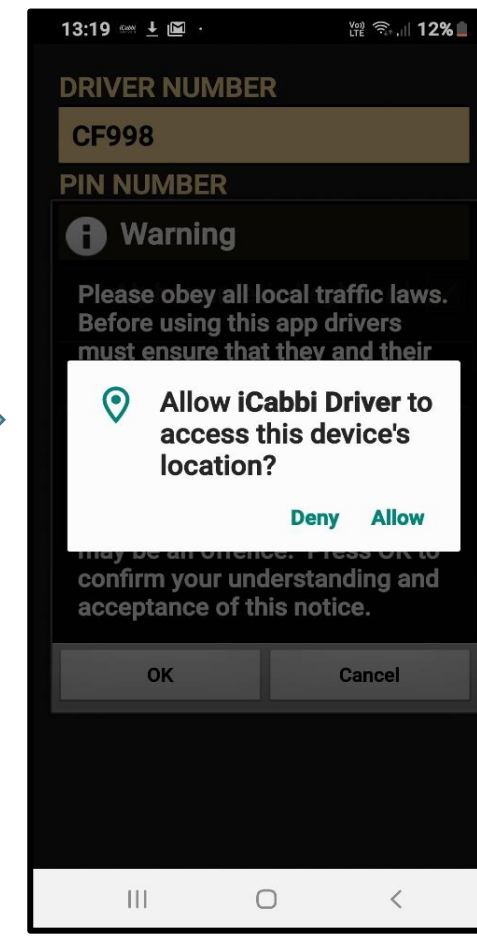

(13) Insert the Company ID (1515) and the Password (314015), then click Login

(14) Press the Alphanumeric Keyboard box

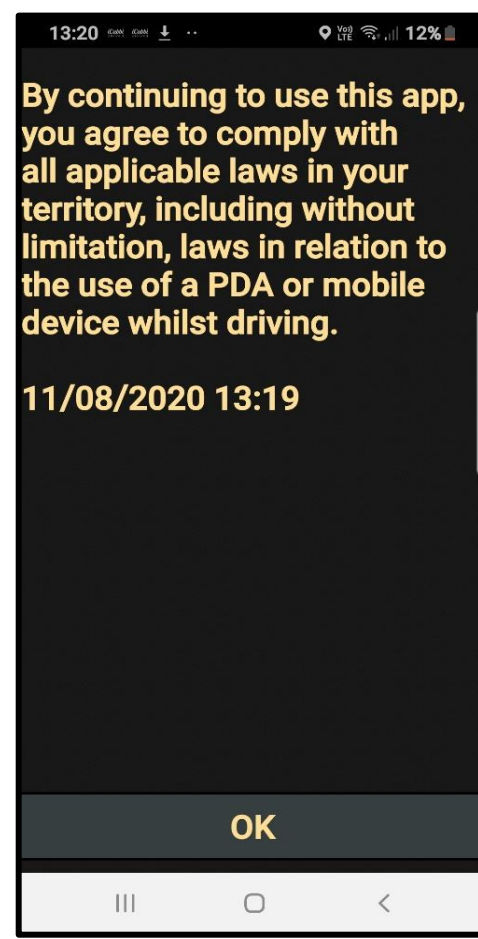

(15) Enter your Driver Number and Pin Number

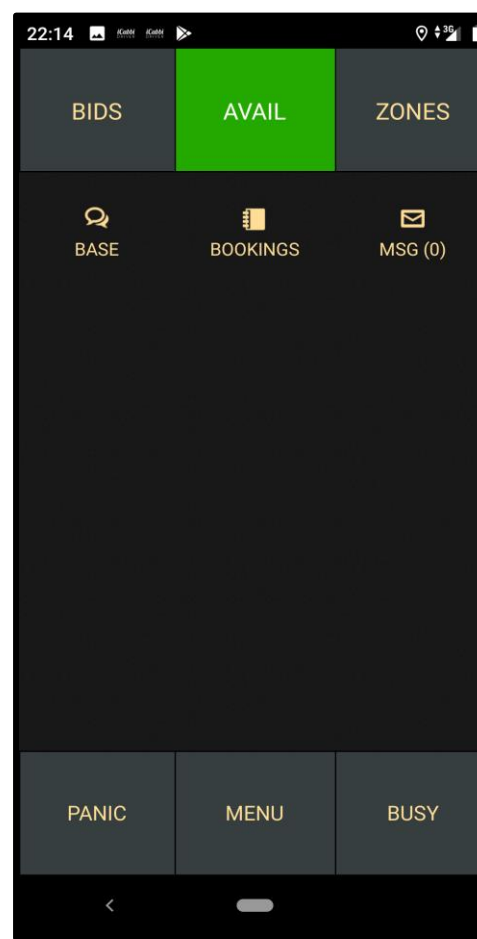

(16) Click Allow

(17) Click OK

(18) Click OK

(19) You are now logged in

(20) You will now need to find the iCabbi Driver App on your device and move it to your desired location on your phone screen for ease of access.
